

NOTES FOR THE CHORUS FROM PIANO DRESS

GEISHAS:

The sliders will open much later, just a second or two before you begin singing. We are working on a monitor and conductor situation to assist you with this.

Please remember to keep your elbows in.

When you take the umbrella off of the right shoulder, look up and over in slowly and very elegantly, and then swing the umbrella over to the left shoulder. It shouldn't be a jerky motion. Please remember them to stay narrow, knees bent and together, toes slightly pointed in, relaxed, elbows in. You are elegant beautiful women of status and should comport yourselves with that in mind.

When sitting at the tables, you all need to be in a "Low kneel"

ALL:

It is very important that you clear the stage (via upstage) as quickly as possible after the freeze once sliders are closed.

Please RUSH into your position around the Bonzo

All the people on Stage Left need to move further to S/L and upstage when you see the gun. It should be a mirror image of Stage Right

Thank you all very much for great work,

Laurie
